

FOUR BENEFITS OF JOINING THE THINK LIKE A PONY CLUB

Riding horses is an incredibly rewarding hobby for children, one that comes with a whole host of benefits from improved hand-eye coordination to instilling mindful habits from a young age, but it isn't the cheapest hobby to embrace. So what if we told you, your children could join an online club that allows them to embrace their love of horsemanship around the clock without your budget going through the roof? Introducing the Think Like a Pony Club and a few of the key benefits of joining it.

WHAT IS THE THINK LIKE A PONY CLUB?

Our online Club provides young pony lovers with the opportunity to learn about ponies in a fun and interactive way. Membership gives you access to a variety of educational tools that include interactive videos, ebooks and online assessments, allowing students to earn badges as they progress.

HOW DOES IT WORK?

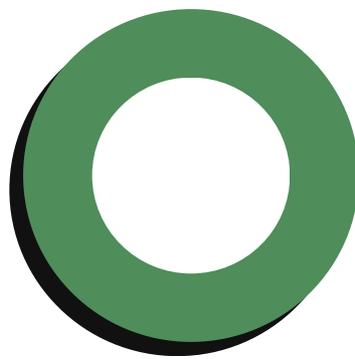

Every member will have their own login that gives them access to the Think Like a Pony dashboard, where your child can participate in a lesson, take an assessment and earn a badge. Up to 66 badges can be earned for various topics including groundwork, practical pony care, riding and more. Beginners will start by developing their general pony knowledge before moving on to learning how to become a leader to their pony.

WHAT ARE THE BENEFITS? A STRONG LEARNING FOUNDATION

Our online Club provides a solid foundation to all things horsemanship. Your child will learn everything from how to build trust with their pony to how to boost their confidence around ponies. During their membership, they will learn rules for good communication, and reflect on how to take responsibility for fostering relationships built on trust and respect.

Your child can learn and progress from home, building confidence while benefitting from online tutoring from their own private horsemanship instructor.

YOU DON'T NEED ACCESS TO A HORSE TO ENJOY IT

Perhaps the biggest advantage of joining the Think Like a Pony Club is that you don't need access to a pony to enjoy it. While we have subscriptions for those who own a pony, we also have subscriptions for those who don't. Whether you're too far away, not at a point where investing in a pony is right, or taking a specific learning journey such as home schooling, the learning environment of our Club is ideal.

DAILY EDUCATION FOR YOUR CHILD

One of the biggest challenges with having a pony crazy child is that one-on-one horse riding lessons and in-person pony clubs are expensive, and for many aren't feasible to visit more than on a weekly basis. With our online Club, your child can learn and progress from home, building confidence while benefitting from online tutoring from their own private horsemanship instructor. As they learn, they will receive a series of badges to document their own unique learning journey.

ONLINE LEARNING THAT'S AFFORDABLE

As we mentioned, this online Club gives you and your family a range of horsemanship activities and lessons to enjoy together without breaking the bank. We offer a variety of membership plans to suit all budgets and our monthly subscriptions start at just £8 per month. Want to find out more about joining our Think Like a Pony Club?
